Special price lot of watermelon seed.

THOMASVILLE, GA.,

DEAR MR. SEEDSMAN :--

We wish to bring to your attention the fact that we expect to produce from 50,000 to 60,000 pounds of choice watermelon seed from the 1922 crop.

We are sure we can furnish you the quality of seed that your trade demands. We have an ideal location being located in the heart of the melon district, and the seed will be selected under our own supervision by our own crew, who are experienced in the art of collecting good seed in a way that they will retain their natural color, and are not collected in a slip shed manner by negroes and tom dick and harry like most of the seed offered on the market.

If you cannot give us all your contract for the next season we would be glad that you would give us a part, which we believe you will increase from year to year after you know what kind of service we can give.

PRICES

Our prices are:- For good high germination feild run seed in 100 lb. lots at 20c per lb. For strictly select stock high germination in lots of 100 lbs. 30c per lb.
FOR SPECIAL PRICE on large lots write us.
